AFT HOLDINGS, INC. LAUNCHES NEW WEBSITE

International investment firm's mission, portfolio now available online

LOUISIANA—AFT Holdings, Inc. announced today the launch of www.aftholdings.com. The new website offers insight into the AFT Holdings mission and vision as well as the company's diverse investment portfolio.

"Our growth over the past few years has made a public, online presence a necessity," said AFT Holdings founder and managing director J. Douglas Hines. "With future expansion plans in the works, we need a platform on which to share our priorities and company news, as well as showcase our efforts to generate social and environmental dividends while realizing financial returns."

Although AFT Holdings, Inc. is new to the web, its commitment to the vision and product of passionate people all over the world is long-standing.

The company's holdings include the leading US Flag tuna fleet in the Western Pacific, a producer of vegan, canned protein products, investments in mid- to upper-value real estate in Louisiana, Hawaii and Tennessee, and an investment in Fleetwood's on Front Street, an upscale restaurant concept in Lahaina, Maui.

"AFT Holdings represents an eclectic and balanced group of private and institutional assets," Hines said. "We hope this new website enhances awareness of our portfolio of companies, and their shared pledge to social, environmental and economic stewardship."
